## **Supplemental Action**

## Allowable Subject Matter

Claims 1-7, 9-19 and 21-24 allowed as amended in previous Notice of Allowability, dated 18 April 2006.

The following is an examiner's statement of reasons for allowance:

With respect to independent Claims 1, 9, 13, and 21, the best prior art of record teaches many of the claimed elements of the invention, including an apparatus for CT imaging, and method for its use, wherein said apparatus comprises a radiation source on a rotating gantry having a focal beam spot; a plurality of detector arrays arranged along a z-axis and configured to detect radiation from said radiation source passing through an object to be imaged, said z-axis direction being along a scanning direction of a longitudinal axis of a patient; apparatus configured to: scan an object in a helical and/or multi-slice mode; control a wobble of the focal spot of the source during said scanning to selectively illuminate individual detector arrays for each view; pulse the radiation source so that the source is off when the focal spot is wobbled between positions; and collect data from each detector array for each view only when detector array for which data is being collected is selectively illuminated.

However, prior art fails to teach or fairly suggest the apparatus and method wherein a wobble is controlled, and detector arrays are preferentially selectively illuminated, in said z-axis direction in the manner required by independent claims 1, 9, 13, and 21.

Art Unit: 2882

Claims 2-7, 10-12, 14-19, and 22-24 are allowed by virtue of their dependency upon Claims 1, 9, 13, and 21, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anastasia Midkiff whose telephone number is 571-272-5053. The examiner can normally be reached on M-F 7-4. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Glick can be reached on 571-272-2490. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 10/748,612
